It is an admitted fact that union or cooperation is strength; disunity is weakness. A united family, a united community, a united society, a united nation is strong; but those who are disunited or spilt up into factions or groups, are all weak. Take the case of a football or hockey team. If the members of the team play together and co-operate with one another, they will form a “strong team”. But if each member plays his own game, they will surely be defeated, however strong the individual players may be. The same is true of an army. To win a battle an army must work as one man. Napoleon’s motto was, “Divide and Conquer”. He tried to split up the armies fighting

against him. Then he would overcome them one by one. Divided they were weak. “United we stand; divided we fall.”

We were also given half day on the account of children’s day which we spent with our wonderful teachers. We sang, ate danced till night. It was indeed a very special day which was only possible because of our teacher’s efforts. I wish you were here to experience. It was truly special.
